## 4. FIRST AID MEASURES

### 4.1 Description of first aid measures

**Excessive inhalation:** Remove to fresh air environment – summon a physician immediately.

**Skin contact:** Wash contaminated skin with copious amounts of water and soap. Remove contaminated clothes and wash them before reuse. Summon a physician, if an irritation appears.

**Eye contact:** Wash contaminated skin with copious amounts of water for at least 10 minutes – open eyelids forcibly. Summon a physician immediately.
**Ingestion:** Dilute with water. Do not induce vomiting. Contact physician.

**4.2 Most important symptoms and effects, both acute and delayed**
No further details.

**4.3 Indication of any immediate medical attention and special treatment needed**
Contact a poison specialist immediately if large quantities have been ingested or inhaled.

## 5. FIREFIGHTING MEASURES

**5.1 Extinguishing media**
**Advised extinguisher:** Use $CO_2$, dry powder, fire extinguisher or foam.
**Unadvisable extinguisher:** Direct jet of water.

**5.2 Special hazards arising from the substance or mixture**
Vapors may form explosive mixtures with air.Containers may explode with the heat of fire.
Burning will cause strong smoke and soot.
Avoid breathing vapours and smokes produced by fire.

**5.3 Advice for firefighters**
Do not attempt to fight the fire with water, which tends to feed rather than smother the flames. Essential oils have the ability to float on water and this causes the fire to propagate more quickly.
Small fires can be smothered by covering with earth, sand or a blanket.

## 6. ACCIDENTAL RELEASE MEASURES

**6.1 Personal precautions, protective equipment and emergency procedures**
Avoid skin, eye and clothes contact. There is a risk of sliding caused by the leaked product. Ventilate well spilling area. Keep away from sources of ignition.

**6.2 Environmental precautions**
Avoid dispose into drainage, sewer system or in any natural environment. Dispose binding material, cloths and sponges according to the national law.

**6.3 Methods and material for containment and cleaning up**
Use of absorbent material (e.g. sand, diatomaceous earth).

**6.4 Reference to other sections**
Please see section 8 and 13.

## 7. HANDLING AND STORAGE

**7.1 Precautions for safe handling**
Ventilate the storage and preparation warehouse/laboratory. Avoid eating, drinking and smoking in the places where products are stored and treated. Manipulate with caution to avoid any projection particularly in eyes and on mucous membranes. Do not expose vapors to the flame or quite other source of ignition. Do not inhale warm vapors.

**7.2 Conditions for safe storage, including any incompatibilities**
It is recommended to keep the product in a water-tight and air-tight container. Keep away from heat and sunlight. Store in a cool and good ventilated area.

**7.3 Specific end uses**
No specific.

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

**8.1. Control parameters**
Please pay attention to the usual precautionary measures with the contact of essential oils. Use good hygiene practice: Please wash before contact, before eating and at the end of the working day.

**8.2 Exposure controls**
**Personal protective equipment:**
**Breathing protection:** Use in well aired areas.
**Eye protection:** Safety glasses.
