

Gas Chromatography Analysis

Dear Customer,

Attached you will find the results of gas chromatographic analysis based on the information provided by our Producer/Laboratory for:

Sample Reference **2540**

We testify that the Chromatographic Analysis (GC) for the mentioned sample is identical with:

Product No.:	2540
Product Name:	Rose Blossoms, abs
Botanical Name:	Rosa damascena
Batch No.:	1019062

Bühl, 2019-02-26

Gas Chromatographic analyse

Components	%
phenylethyl alcohol	59.92
citronellol	7.83
geraniol	3.86
nonadecene	2.38
nonadecane	2.20
eugenol	1.53
nerol	1.44
methyl eugenol	0.87
benzyl alcohol	0.76
heneicosane	0.35
ethanol	0.34
phenylethyl acetate	0.23
tricosan	0.19
limonene	0.01
myrcene	0.00
limonene	0.00
